A piece of paradise perched on the Mzingazi Lake.

The modern home oozes style and sophistication. The entrance is striking, with a water feature cascading into a koi pond. Upon entering you will immediately fall in love with the fabulous lake view. The ground floor has spacious living areas, all immaculately finished by a top interior decorator. The gourmet kitchen allows you to cook while still interacting with your guests. The frameless stack doors through this level allow for easy flow between the covered patio and the dining and living areas. The gym has a great location within the property and there is a large home office.

Upstairs you will find incredible bedrooms all finished to exacting standards and feel magazine-worthy! There is a pajama lounge as well as a kid's study which could be additional accommodation if required. 2 bonus spaces honestly need to be seen to be...
